Woodstock City Council:

The Woodstock Lawn Bowling Club has had an active presence in the City since 1894, with the past 70 years operating out of its present location. We are proud of our location and many around the province speak highly of the quality of our lawn greens.

We want to make local businesses aware of team building opportunities at the Club as well as making our not-for-profit group aware to residents as an avenue for our city to lead a healthy lifestyle, both physically and mentally.

We are seeking permission run a Lawn Sign campaign, commencing on or about May 8 and concluding on May 21. We would distribute lawn signs around the City on city boulevards, trail entrances and near entrances to parks. Lawn signs would also be distributed in residential areas; permission of the residential owner would be sought.

On behalf of the Woodstock Lawn Bowling Club, I thank you for considering our request.

Sincerely,

Lorraine McLean
President
Woodstock Lawn Bowling Club
